

Kanade Anand Udyog Private Limited

Anand Udyog

a Partnership Company was founded in 1985. The Company was converted into a Private Limited Company in 2005. The Company is owned by Kanade Family. The Company is run by Mr. Dinanath Kanade and Mr. Sunil Kanade.

All the manufacturing units of the Company are located in MIDC, Ambarnath, Dist - Thane (50 Kms. From Mumbai). There are Three products Lines

1. Electroforged Floor Gratings
2. Cable Trays and
3. Transmission Lines Towers and Structures.

Besides this Company has captive galvanising facility with bath size of 10 Mtrs. Length x 1.5 Mtrs. Width x 1.1 Mtrs. Depth.

The main product of group is Electroforged Floor Grating. There are production lines with monthly capacity of 2500 MT.

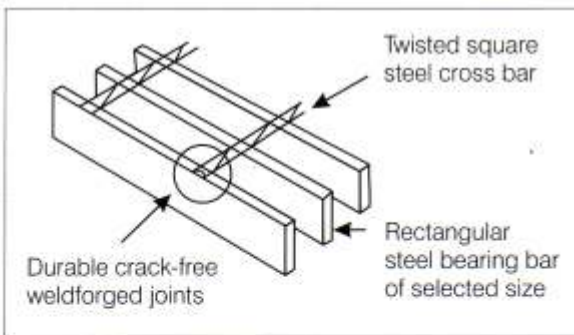

Clients

- Bharat Heavy Electricals Limited (BHEL)
- Reliance Petroleum Limited (RPL)
- Reliance Industries Limited (RIL)
- Shapoorji Pallonji & Co. Ltd.
- Black & Veatch (U.S.A.) Consulting Co. Ltd.
- Heurtey Petrochem Equipments Pvt. Ltd.
- Indian Oil Tanking Limited (IOCL)
- Samsung Engineering Ltd.
- Larsen & Toubro Limited (HARP, Baroda)
- Larsen & Toubro Limited (ECC)
- Larsen & Toubro Limited (Group - II, Powai)
- Toyo Engineering India Ltd.
- Lanco Infrastructure Limited
- Thyssenkrupp Industries India Ltd.
- Punj Llyod Ltd.
- Alstom Limited

Electroforge Technology

Gratings are manufactured by PLC controlled equipment which combines high hydraulic pressure (more than 100 Tonnes) and high electric current (approx 2200 amps) to electroforge the cross bar & bearing bar into a single standard panel.

The Electroforming process eliminates any crack or open joint. The strength of bearing bar is also retained. The square twisted bar (cross bar) provides excellent antiskid property.

We can provide the following standard type steel gratings.

Tables of Bars

Bearing bar

Bearing bar sizes in mm	30 x 5, 32 x 5, 30 x 3, 25 x 3, 25 x 5, 40 x 5
Bearing bar types	Plain or serrated

Cross bar

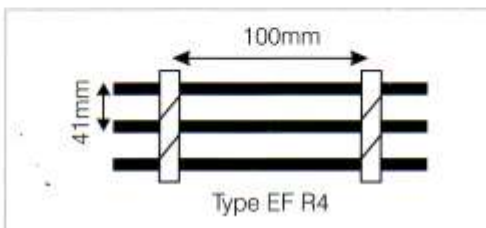

Cross bar sizes	6 mm, 8 mm
Cross bar types	Round or square (twisted)

Table of gratings panel sizes in mm

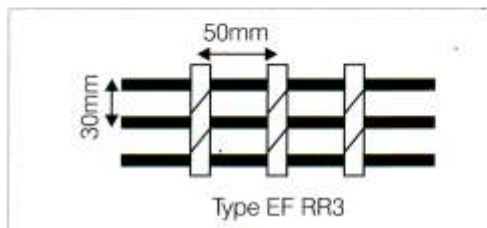

R3 & RR3	6000 x 995
R4 & RR4	6000 x 995

Standard Welded Gratings

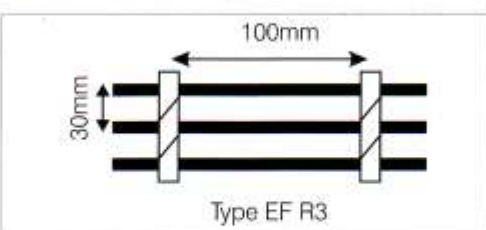

Standard electroforged gratings with bearing bars spaced at 41 mm on center and cross bars at 100 mm on center.

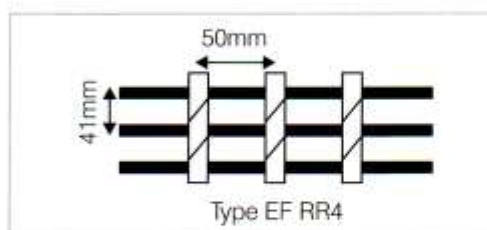

Standard electroforged gratings with bearing bars spaced at 30 mm on center and cross bars at 50 mm on center.

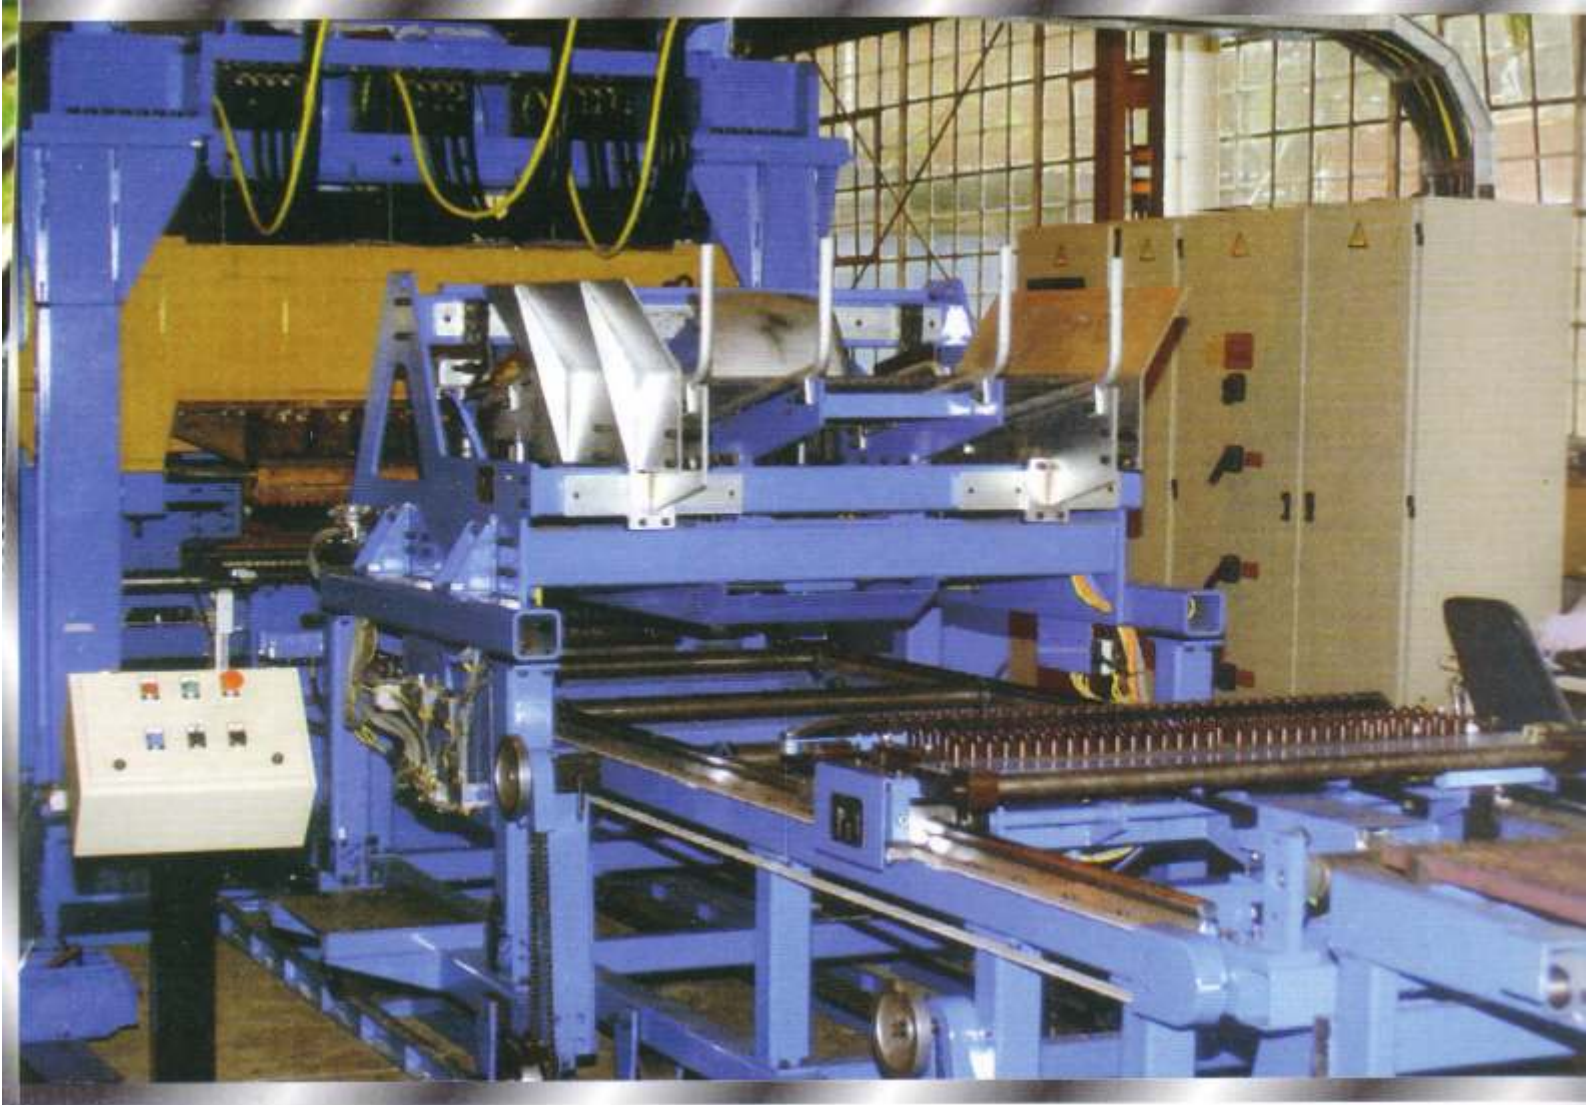

Standard electroforged gratings with bearing bars spaced at 30 mm on center and cross bars at 100 mm on center.

Standard electroforged gratings with bearing bars spaced at 41 mm on center and cross bars at 50 mm on center.
